

WELCOME!

Welcome to the ISSCC 2007 Digest CD. From its beginning in 2005, this CD is a result to the many requests we have received over the years for Conference-time search-ability. A second CD, which will include the Visuals Supplement, will be mailed as usual, in late May.

This early CD is designed so that you may access the Digest in various ways: For example, using the "Browse By" link to reach several pop-down menus, in various ways, to access the papers.

I wish to acknowledge the technical work by Bill Romer, Brad Phillips of MIRA Digital Publishing in the production of this CD, using the basic Digest data provided by Steve Bonney of S3 Digital Publishing.

We hope you enjoy using this ISSCC product!

Enjoy!

Laura Chizuko Fujino
ISSCC Director of Publications/Presentations
